## Software Developer

☎ (+91) 8860514511 ✉ shefali22119@gmail.com [in](#) LinkedIn [G](#) Github

### SUMMARY

Software Developer with 1+ years of experience specializing in frontend and full stack development using React.js, Next.js, Node.js, and React Native. Delivered high-impact features across fleet management, e-commerce, and wellness platforms serving 5,000+ users, with strong expertise in RESTful APIs, MongoDB, and MySQL.

### PROFESSIONAL EXPERIENCE

#### Full Stack Software Developer

[Arshiya Infosolutions](#) 📅 Mar 2025 - Aug 2025 | 📍 Gurugram

Arshiya Infosolutions – A Gurgaon-based technology company building consumer mobile applications serving users across 50+ countries.

- Engineered and maintained the admin panel using the MERN stack and RESTful APIs, ensuring smooth performance and scalability for 5,000+ users.
- Debugged and resolved critical notification-scheduling issues in Node.js, improving system reliability and boosting operational efficiency by 85%.
- Upgraded multiple app modules with CRUD functionality and questionnaire versioning, enabling 200+ users to access structured self-growth content.
- Introduced universal email sign-in with OTP, expanding secure login options beyond Google/Apple.
- Established a multilingual content system, ensuring consistent translated content across the app for improved accessibility.

#### Front-end Developer

[RedefineAlgo Tech Solutions Pvt Ltd](#) 📅 Jun 2024 - Jan 2025 | 📍 Noida

An IT services company delivering web and mobile solutions for enterprise clients across healthcare, finance, and e-commerce.

- Developed a Fleet Management System using Next.js for 500+ daily users, streamlining employee bookings, driver assignments, and automated trip billing.
- Programmed a React Native driver app displaying real-time ride information and driver-specific details.
- Integrated Google Maps API with real-time geolocation tracking, reducing pickup coordination errors by 25%.
- Implemented a dispatch + B2B routing system, boosting route efficiency by 70% and cutting empty return trips.
- Contributed to an interactive Community Board (Yelospace) using React and RESTful APIs, enabling posts, real-time comments, and post management, handling 150+ monthly API calls.
- Delivered a React.js admin panel for Ohio Doors (US-based e-commerce), implementing role-based User Management and door inventory with RESTful API integration.

#### IT Support Executive

[Agmatel India Pvt Ltd](#) 📅 Aug 2023 - Jan 2024 | 📍 Delhi

A technology solutions company specializing in IT infrastructure, system integration, and self-service kiosk products for enterprise clients.

- Audited and resolved 50+ UI inconsistencies (fonts, alignment, colors) using frontend best practices, improving overall visual consistency.
- Created technical documentation for features and workflows, reducing developer onboarding time by 25%.

### EDUCATION

#### Master of Science, Informatics

[Institute of Informatics and Communication](#) 8.271/10

📅 May 2021 - May 2023 | 📍 University of Delhi

#### Bachelor of Science, Physics

[Gargi College](#) 7.703/10

📅 May 2017 - May 2020 | 📍 University of Delhi

### TECHNICAL SKILLS

**Languages:** C++, JavaScript, SQL

**Frontend:** React.js, Next.js, React Native, Material UI, Tailwind CSS

**Backend:** Node.js, Express.js, RESTful APIs

**Databases:** PostgreSQL, MongoDB, MySQL

**Tools & DevOps:** Git/GitHub, Docker(basic), Postman, Jira, Bitbucket

### KEY ACHIEVEMENTS

#### LeetCode – 300+ Problems Solved

Strengthened skills in Data Structures & Algorithms on [LeetCode](#), earning multiple 50-Day and 100-Day consistency badges.

#### Open Source Contributor – iloveAgents

Contributed to an open source AI agents platform with 2 merged pull requests improving UI/UX and brand consistency. [github.com/AditthyaSS/iloveAgents](https://github.com/AditthyaSS/iloveAgents)

### PROJECTS

#### LeetCode Stats Card

📅 Mar 2026 - Apr 2026

🔗 <https://leetcode-stats-card-opal.vercel.app/>

- Built an open-source API generating customizable LeetCode stats cards as SVG images, embeddable in GitHub READMEs.
- Implemented server-side LeetCode GraphQL data fetching with caching and multi-theme support.

**Tech Stack:** Next.js · Vercel · GraphQL · SVG

#### DilliHues

📅 Dec 2025 - Jan 2026

🔗 <https://dillihues.vercel.app/>

- Created an AI-powered travel assistant with mood-based recommendations and gender-aware safety insights.
- Integrated a custom itinerary generator using Google Maps API for personalized, location-based planning.

**Tech Stack:** Next.js · Node.js · PostgreSQL

#### Portfolio

📅 Feb 2024 - Apr 2024

🔗 <https://saifali-portfolio.netlify.app/>

- Developed a wizard-themed portfolio with interactive 3D elements, increasing user engagement by 60%.
- Designed a mobile-first UI, reducing load time by 40% and improving cross-device experience.

**Tech Stack:** Next.js · Three.js · Tailwind CSS

#### PetMe

📅 Feb 2023 - May 2023

🔗 <https://ppetme.netlify.app/>

- Built a Pet Adoption/Rehome platform, integrating RESTful APIs for seamless data handling and authentication.
- Managed state with Redux and designed a responsive UI, reducing lag by 25% across devices.

**Tech Stack:** React.js · Node.js · Express.js · MongoDB · Redux
